

# QuickCAM Pro

## ADVANCED MILLING CAM SOFTWARE

**INCLUDES  
F1 CAR WIZARD**

QuickCAM Pro is an advanced, yet simple to use, wizard based CAM package, which is used to create cutter paths for machining 3D parts on a milling machine or router. Both STL files and image files can be imported into QuickCAM Pro, and a comprehensive set of machining plans can be used individually or in combination to produce complex 3D surfaces and lithophanes.

The latest release of QuickCAM Pro includes the F1 Car Wizard, which simplifies the process of creating the CNC file to cut both sides of an F1 car.

Simply progressing through the pages of the Wizard allows the program for both the left and right hand side of the car to be created in one easy operation.

Ideal for use in conjunction with

**in Schools**

## QuickCAM Pro

### FEATURES

12 machining plans – use individually or in combinations:

- **3 Roughing Plans.**
- **6 Finishing Plans.**
- **3 Fine Finishing Plans.**

Each plan can be customised or used with default values.

Any number of plans can be used to produce the final part.

Different cutters can be used with each plan.

Simulation mode can be toggled on or off for easy viewing.

Custom boundary feature allows selected area to be machined.

Viewer and simulation colours can be selected and changed.

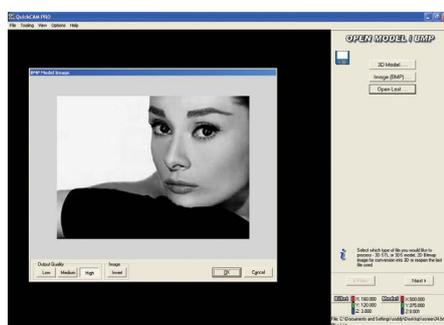

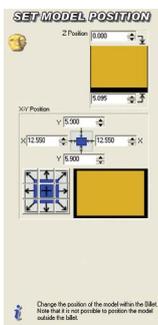

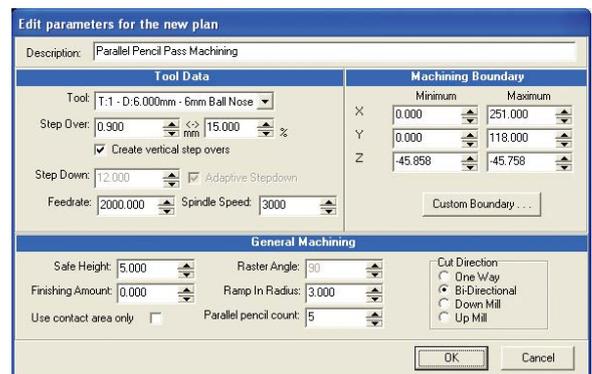

Finished models can be rendered in custom materials.

Intelligent scaling fits model into billet or billet around model.

Comprehensive “show me” files to provide Help options.

### SUPPORTED INPUT FORMATS

3D Stereo Lithography (STL) files, as created with 3D design packages.

### RECOMMENDED SYSTEM REQUIREMENTS

- 1 GHz Processor,
- 1 GB Memory,
- 32 GB Hard Disk,
- Microsoft Windows 7, 8 & 10,
- OpenGL Graphics Card, or built in Graphics,
- to support a minimum 1024 x 768 Screen Resolution,
- CNC machines require USB Connection.
